These students were previously reported as enrolled in at least one program for this term, however that program does not appear on the current enrollment submission. If the student is still enrolled in the program please click the (+) to the left of the record and update the program status and program status effective date. Note: if there is no change from the status previously reported, the program status effective date should not change from the prior record. If the program status has changed (increased, decreased, changed to withdrawn, or graduated for example) please update the Program Status and Program Status Effective Date.

If you are attempting to correct a program that should not have been reported, please indicate with a Never Enrolled status and set the Program Status Effective Date to equal the Program Begin Date. After correction has been made, submit for validation.

A record can have no more than 6 programs with a status that is NOT Withdrawn, Graduated, or Never Enrolled. Please update the Enrollment Status of any extraneous programs to Withdrawn, Graduated, or Never Enrolled to indicate that the student is no longer enrolled or should not have been reported in these programs. Also, please update the Enrollment Status Effective Date to the accurate Withdrawal or Graduated date or to the Program Begin Date in the event the Never Enrolled Status is being used.

Our Value to You

Since 1993, the National Student Clearinghouse has been higher education's trusted and secure partner committed to privacy and transparency. Our **free Enrollment Reporting service** provides institutions with automated enrollment verification and deferment reporting to the Department of Education and education finance industry. This improves data accuracy and helps institutions stay in compliance, while reducing their workload. Through **Compliance Central**, the **Clearinghouse Academy**, and our **Audit Resource Center**, we provide best practices, audit support and training to help institutions maintain compliance.
